Profile

I am a dedicated Qualified Electrician with a Trade Test Certificate, over 2 years of hands-on experience in practical electrical work gained through In-service training and N6 Electrical Engineering. I am skilled in residential and commercial installations, fault finding, DB wiring and preventative maintenance to SANS 10142 standards. I am safety-conscious, hardworking and ready to contribute my technical skills.

Education

Matric

Jan 2014 - Dec 2018

Dinoto Technical School, Daveyton, East Rand, South Africa

Electrical Engineering (N4-N6)

Jan 2019 - Aug 2020

Ekurhuleni East TVET College, Daveyton

Employment

ELECTRICAL IN-SERVICE TRAINEE

Nov 2022 - May 2025

PRESTO, Johannesburg, CBD, South Africa

- Executed practical installations, repairs under the supervision of senior electricians, ensuring compliance with safety standards.
- Performed fault finding and testing on control panels, DB wiring and lighting circuits.
- Interpreted electrical drawings to install wiring systems and conduits accurately.
- Assisted in the preparation and installation of electrical components in new construction projects, contributing to timely project completion under electrician supervision.
